DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-6,8-10,12-18, 21-25, and 27 are rejected under 35 U.S.C. 102(b) as being anticipated by McIntyre #5,628,383. McIntyre discloses a tree stand assembly 12 comprised of platforms 14, 18, 25, platforms 14 and 18 having pivoting members, a ratchet 28 to adjust the stand relative to the tree 11, frame elements 22, 23, 24, 21, 19, and tree engaging elements 15-17.

Allowable Subject Matter

Claims 7, 11, 19, 20, and 26 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. The primary reason for the allowable subject matter of the claims is the inclusion of a telescopic attitude adjuster that allows the first and second members to be telescopically united. The prior art of record fails to teach or suggest the claimed features absent the applicant's own disclosure.
